the conceptualization of SURFACE. jb

## DISCUSSION OF COURSES

### Jason Bailey

#### Details

phone | 1.515.443.9604

107 S Howard Avenue

Spokane, Wa 99201

email | baileyjason@icloud.com

Nationality

United State of America

#### Links

[www.surfacestudio.org](http://www.surfacestudio.org)

[linkedin.com/in/jasondbailey/](https://www.linkedin.com/in/jasondbailey/)

#### POTENTIAL COURSES...

The studio is my primary design and learning environment. Surface Studio is a collection of concurrent learning courses intended to foster a heightened awareness of design (urban design, architecture, interior design). Each studio course (12-16 weeks) seeks to build toward a comprehensive foundation reared in thought (sensing), reflection (thinking) & making (generating). Students will progress from a conceptual understanding of place through a detailed articulation of forms (buildings).

##### **Essence Studio (no.1) – Forms**

The exploration of thoughts and forms reveals the inherent nature of design endeavors. These essences as constructed frame the potential of any design form. This studio can be taught as a pure design (making) studio or a hybrid design studio/ seminar. Within the seminar section of the course, I introduce reading, writing, and research material regarding the place.

##### **Ambiance Studio (no.2) – Interiors**

This studio is the continuation of thoughts and forms derived from a place. Exploration seeks to identify the nature of a culturally saturated context. Site analysis is developed as a means to reveal what constitutes a place. This studio challenges students to work inside existing forms to explore human activities and spatial experiences.

##### **Essentials Studio (no.3) – Pavilions**

This studio is a continuation of thoughts and forms derived from a place into recognizable forms that express a sense of design. The utilization of design principles and elements as programmatic vehicles is required. Objects are developed at multiple scales to explore material conditions moving toward 1:1 forms (Design-Build).

##### **Surface Studio (no.4) – Landscape + Architecture**

The Landscape + Architecture studio is an exercise seeking to expand the design form limit beyond the temporal building envelope. The site within a given place becomes the programmatic surface. The program and development of a textural site are meant to articulate a oneness of place. The primary form of this studio is the ground as a surface to be programmed prior to the introduction of building forms.

##### **Surface Studio (no.5)**

The final studio is a comprehensive thought, reflection, and making a proposal. The purpose of the studio is to allow a student to present design (architecture + landscape + interiors) as a totality of thought. Students are challenged to generate, justify and explain their unique proposals. The framework of the studio is a synthesis of design foundations through advanced speculations regarding contextual environments. Students are challenged to investigate cultural identifications as a determinate of place.

##### **Seminar**

My primary research areas are architecture, cultural theory, and aesthetics. The studio work derives from ideas regarding epistemology (knowledge), ontology (essences), and phenomenology (senses). The course will introduce architectural writers: Christian Norberg-Schulz, Colin Rowe, Kevin Lynch, Juhani Pallasmaa, Jun' Ichiro Tanizaki, as well as philosophers Walter Benjamin, Maurice Merleau-Ponty, Friedrich Bollnow, and Roger Scruton.

Case studies will be selected to foster an awareness of place as a cultural construct surface in which forms emerge. The works cited will be utilized to construct architecture as a design endeavor formed intertextually meant to reveal the nature of any particular site. The primary purpose of the design seminar is to challenge students to see sites as places laden with cultural content. The use of reading, writing, and research shall challenge students to determine what they think constitutes place within a given spectrum.

气氛 | AMBIENCE

WIND is a sense of light and dynamic force that exist as shadow, energy & color that form potential moments of WIND.  
 “风”是光与能量结合时力量的感知，以阴影、能量和色彩存在，形成关于“风”的潜在时刻。

思想 | THOUGHT

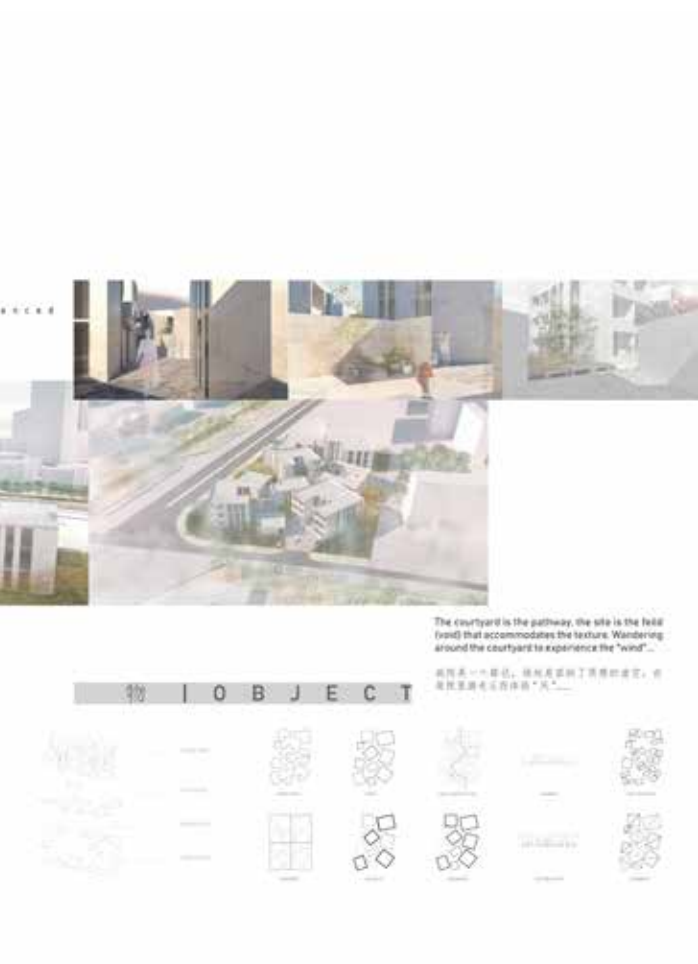

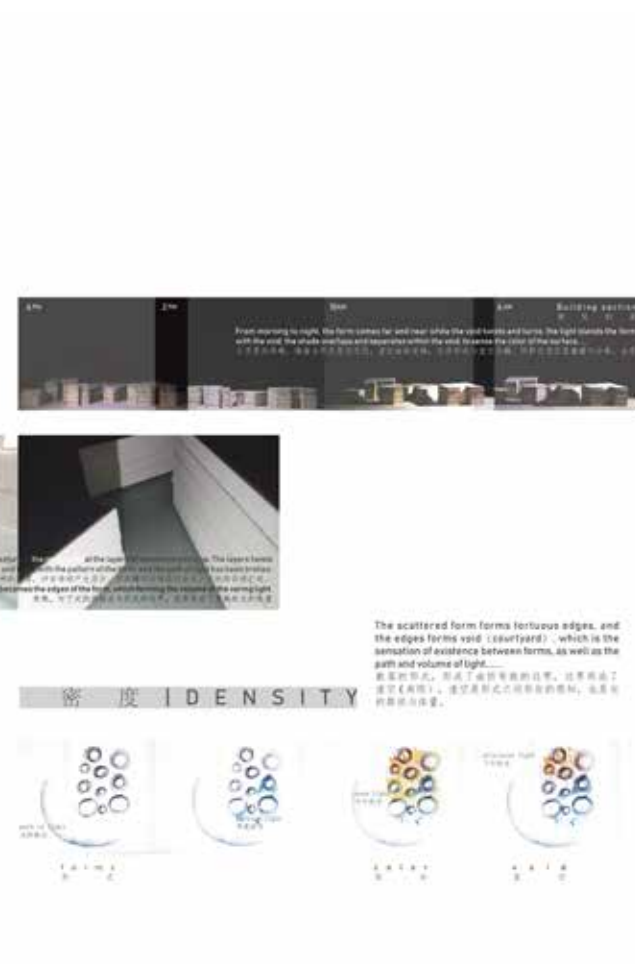

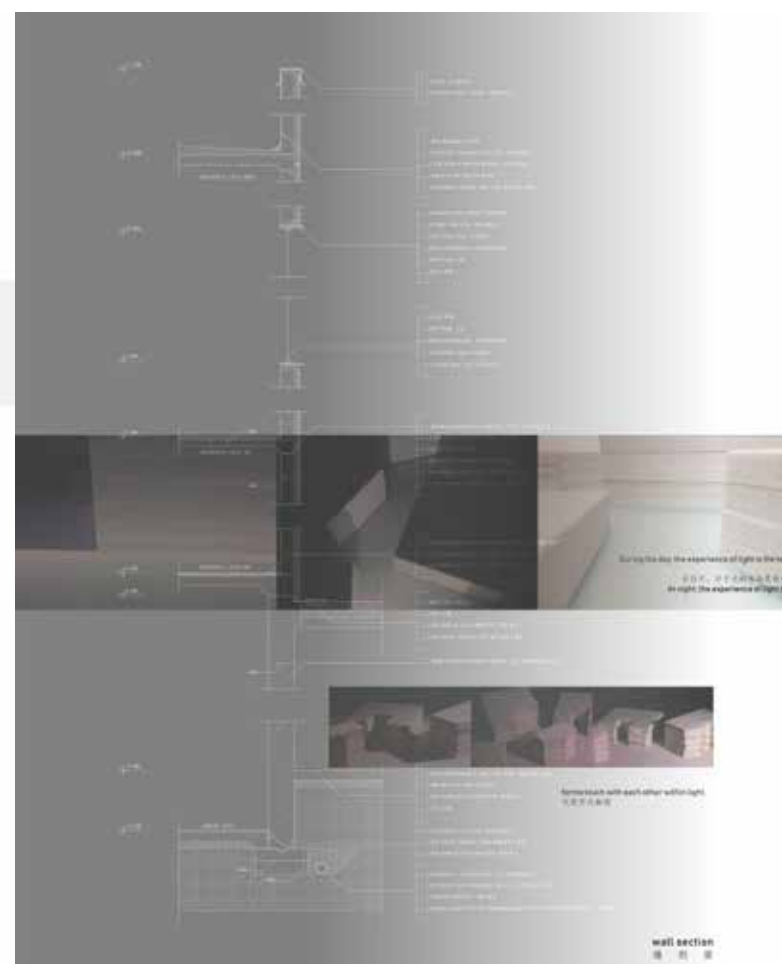

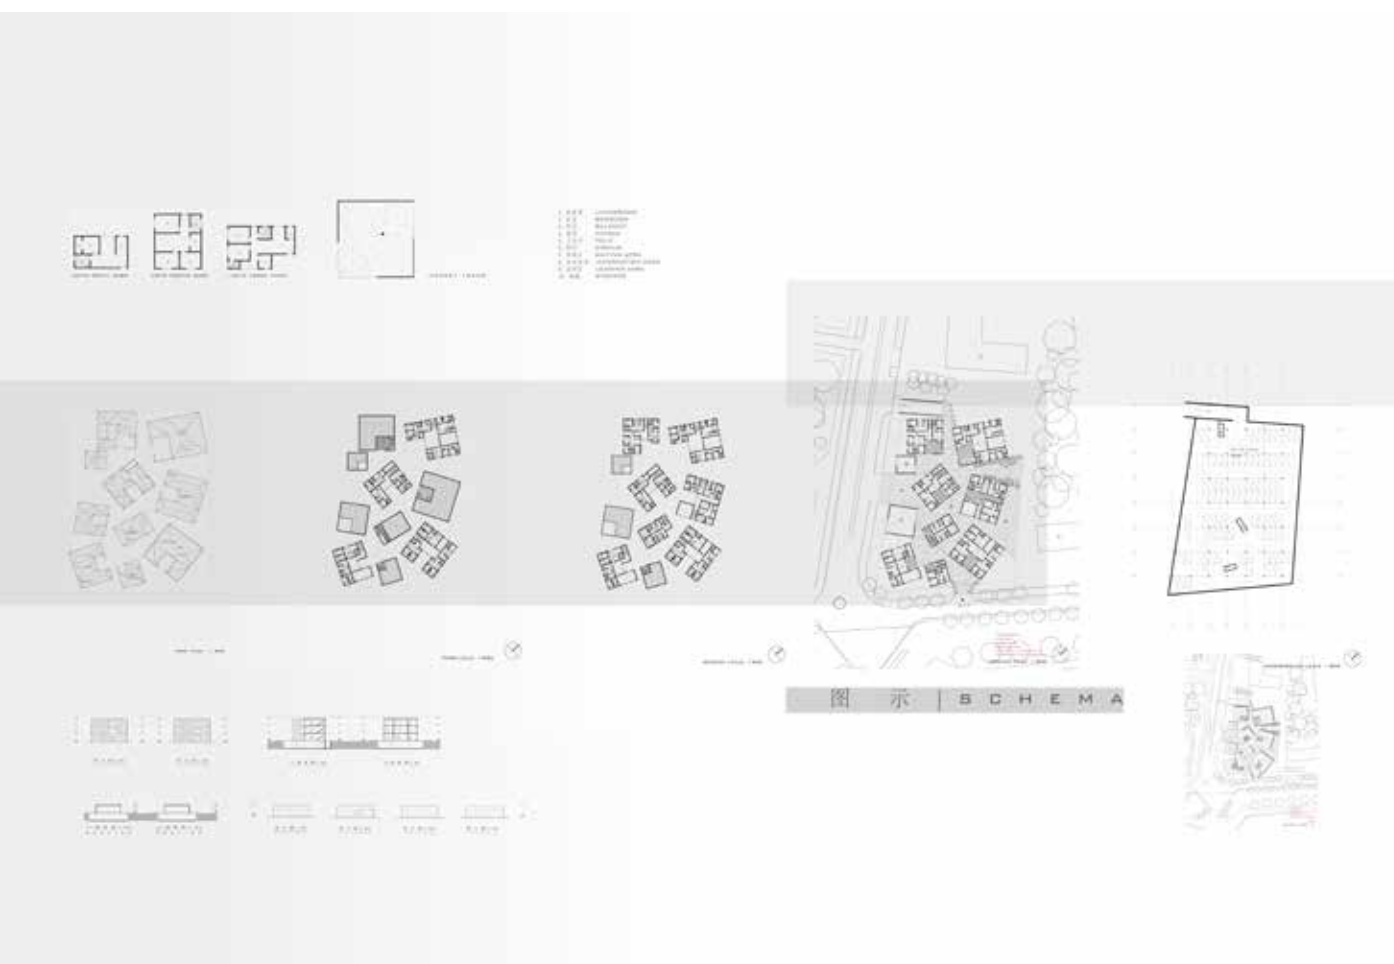

I have a thought regarding "Wind". "Wind" is a field(void) of scattered forms. Forms are density associated elements interlaced forming the affect or experience of color.  
 我有一个关于“风”的想法。“风”是一个形式散落的虚空，形式是密度关联的元素交错形成关于颜色的影响或体验。

思维的形式是一个破碎的表面。  
 The form as imagined is A broken surface.

关于“散乱”的感知... the sensation of scattering...

# 场地分析

场地——学校现状、建筑现状  
场地是一个具有与周边环境一个联系，设计要融入环境，考虑与周边环境的关系，在建筑中，应体现与周边环境的关系，使建筑成为环境的一部分，使建筑成为环境的一部分，使建筑成为环境的一部分。

# 表面想法

形式和想法是一种视觉的呈现。

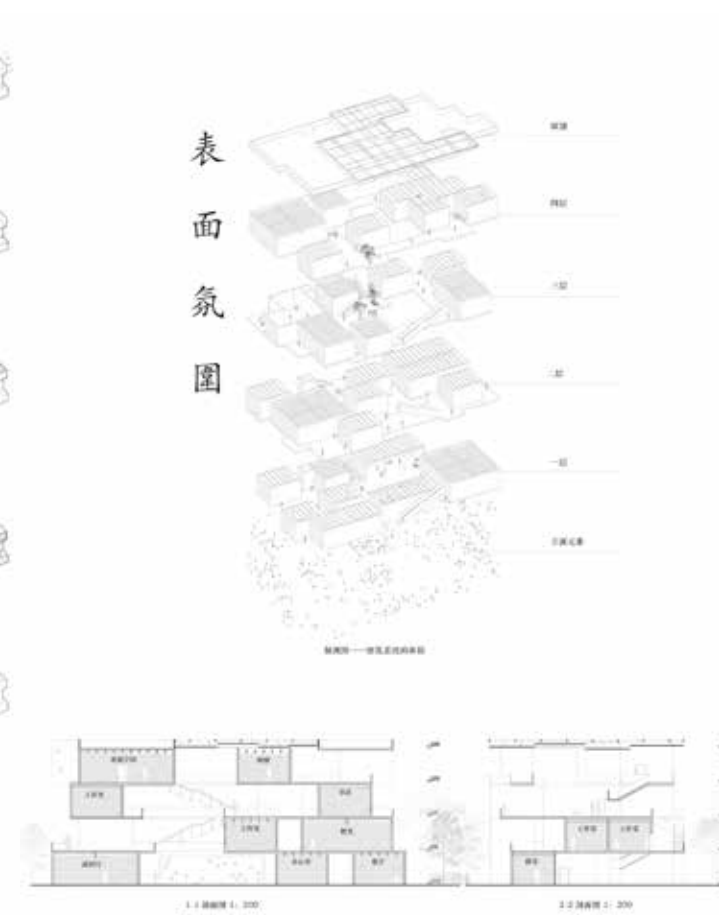

理念：一种新的材料形式，通过一个大的空间来展示，使建筑成为一种新的材料形式，使建筑成为一种新的材料形式。

思考与材料  
中国美术学院中心建筑现状分析  
思考与材料，思考与材料，思考与材料。

**COMPOSITE | AMBIANCE**

**SHADOWSTUDY**

**SURFACE ANALYSIS**

FLUCTUATION is a sense of FLOW that exist as SHADOW,COLOR and ENERGY that form potential moments of the WAVE.  
起伏是一种对流动的感觉，存在于影、颜色和能量中，从而形成了关于波动的潜在瞬间。

**SURFACE THOUGHT**

建筑形式于起伏的一种思考方式。波浪是起伏的形式从而形成虚空，波浪的形式与弯曲的形式形成对比从而影响整个虚空。虚空的变化产生方向，这是一种微妙变化的规律。深奥而简洁，波浪是起伏的精神表达。

Wave is a way of thinking about fluctuation. Wave is curved surface that shaped the void, contrast between liner surface and curved surface affecting the entire void, and the collision of the void produces direction. There is an extension from the inside out, unstoppable and infinite. Wave is the expression of thoughts regarding fluctuation.

被想象的形式是趋势。  
The form as imagine is trends.

**FORM**

**FORM | WAVE**

**SURFACE FORM**

**FORMATION | WAVE**

**FORM | WAVE**

**SURFACE FORM**

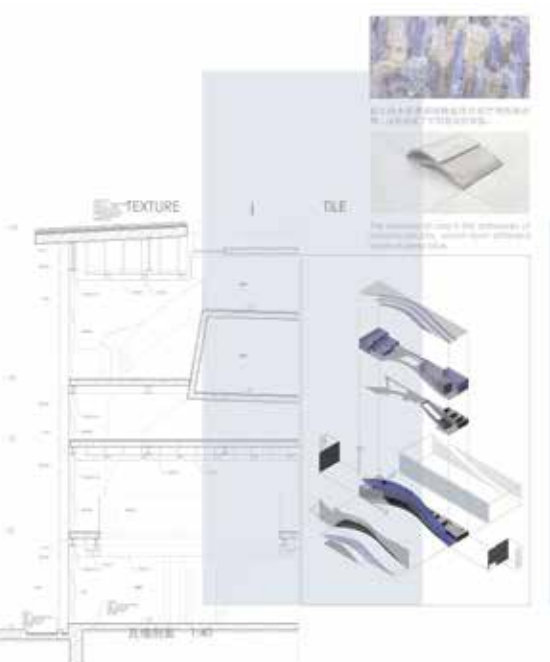

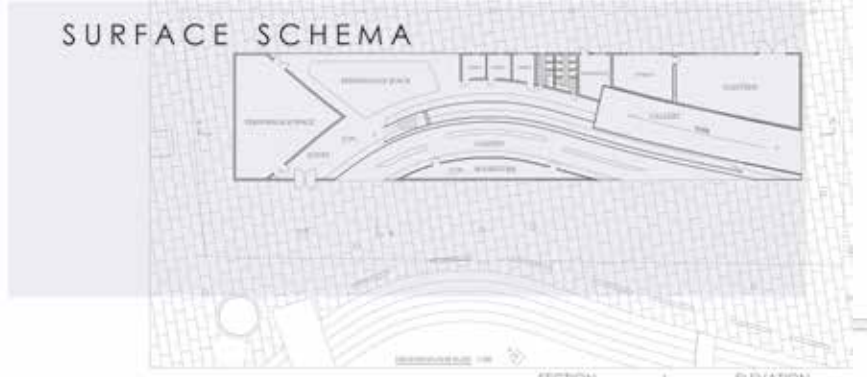

**FORMATION | WAVE**

## SURFACE IDENTITY

起伏是关于对地表的反映，特殊的表面被赋予不同的属性（文化、活动、能源、与流动），起伏是关于思考的方式，波浪是表面的形式和过程的空间，而地表的起伏则被理解为起伏或波。起伏在一个特定的瞬间揭示出波浪的形式，这个特定的瞬间存在于瓦片和大理石中，瓦片是对传统韵律的回应，大理石是对场所精神的回应...  
Fluctuation is the reflect of the surface of the site. The surface of the site is linked to the context of the PARK (culture, activity, energy and flow). Fluctuation is the way of thinking about the WAVE. Wave is curved surface that shaped the void, and the random energy flow of the site passes through the WAVE. Trying to reveal the form of the texture in a particular moment. This particular moment exists with tiles and marble. Tiles are a response to the traditional context, and marble is a response to the surface of the site.

## SURFACE DENSITY

光是能量，我们所看到的景象，随着观看条件的不同而不同。光通过材料反射，这样我们就看到了材料的纹理，对特定物质表面的光的感知形成特定的纹理。Light is energy, what we feel is energy, and matter is the condition for energy to exist. Light is reflected via the material so that we can see the texture of the material. The perception of light on the surface of a particular substance forms a specific texture.

WALL/ STACKING/ ELEMENT

Wall can be composed of many elements to divide an area. The first thought is stacking. The texture is created by a variety of distinct elements. Elements are simple forms, continuous forms. Simple continuous form become layer textural form. Texture, element, quantity. They create a wall.

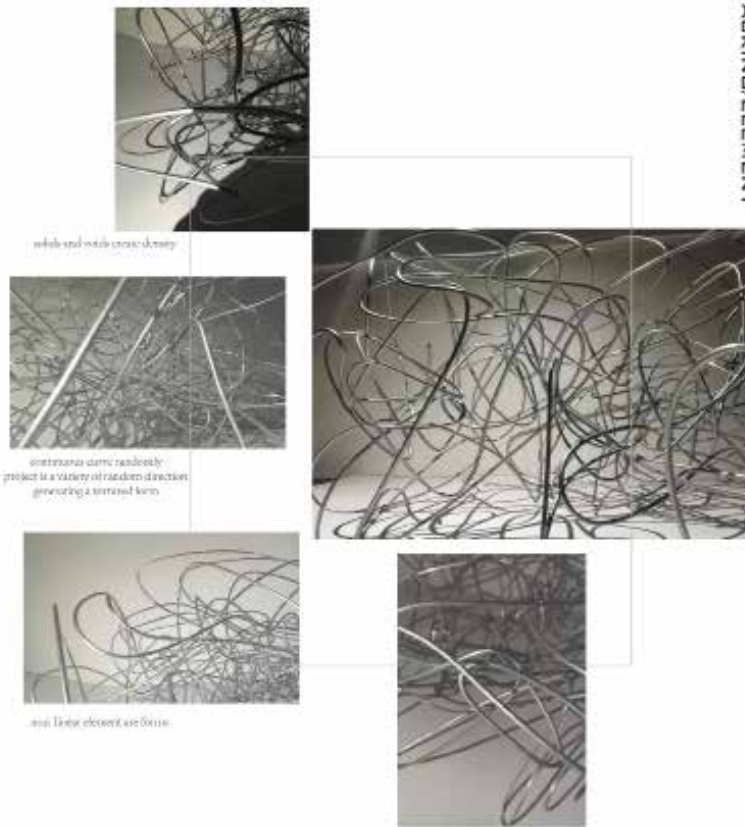

Wall Design Project

WALL/STACKING/ELEMENT

Many simple elements form which that divide actual and virtual space.

WALL/STACKING/ELEMENT

A single forms that are placed to make complex forms that divide space. The idea form of element is gathering irregularly elements together.

WALL/ STACKING/ ELEMENT

powder is one of its dimension, steel powder is gray, when it formed block will have brown.

Powder and magnetic particles can form various shapes and after high temperature of smelting.

Hot reflective powder that can be formed into linear and non-linear forms. The essential nature of steel is a mixture of reflective powder with magnetic particles. The mixture only becomes or exhibit lightness in structure, color, mass as a liquid.

of SURFACE.

What does it mean to learn?

Learning is a matter of internalizing thoughts that exist spatially.

Once thoughts that exist are internalized the learning body no longer thinks thoughts.

One merely expresses that which needs no thought.

I cannot teach anyone to design that which is beyond them to form.

Perhaps it is possible for me to converse regarding one's ability to sense that within the world is sensible.

Then to form that which is a response may emerge if one can form within a framework of architectural rules that govern objects.

Why do we learn?

&

How do we learn?

studio

of SURFACE.

**Becoming...**

What then is a student?

A student is the one in time.

Alas, an observer, an absorber and critic of the moments before them.

The potential of thoughts pondered will inevitably reveal the observant student,

the absorbent student,

the critical student has thoughts that can benefit others.

Only then will the student have thoughts worthy of exchange.

A students are potential...

studio

of SURFACE.

Effortless...

What are you presenting to others? Your work is never a product of this moment. The work you produce is always projecting the limits of your mind. Your work is always past and future if you have an imagination. If, you know what you imagine then your work is projecting you into time.

But where is time?

Time is not spatial. Please, do not continue to repeat that time and space mess you hear from others. You are architects or students of architecture not physicist. Time is in the mind not the visible spectrum. Often uttered incessantly about by those whom wilt upon a mild challenge due to their lack of awareness.

But when is time?

The time of within the mind is not the time of the images (renderings) on the screen or paper before one. Where are you operating? In the past, present or future? Do you know how to imagine or are you just copying what you 'hope' is good because you do not know what is valuable?

Is your work valuable? If so who values your efforts?

unidentified...

studio

of SURFACE.

within the **Mindful**...

Design is never a matter of what I like.

What I like only seeks to address what I sense within a determined moment.

Design is beyond my momentary glance.

To glance is not to internalize the essence of thought reflected upon in order that

Experiences become...

Become what?

To become is to affect how others perceive the world before them.

How does one affect the perception of?

To affect is to call the surfaces of the body to a moment in time within the experience

Of forms to exchange responses...
